**One of SWIHA's core values is flexibility and choice. Therefore, many of our students pass their estimated graduation date due to the ability to explore more than one specialty. These options support our students in refining their gifts and graces, to ultimately be able to go out into the world in a loving and profitable way. Yet, SWIHA is dedicated to graduating students in a timely manner and before the Federal Government's maximum time frame guidelines. The on-time 'completer' statistics will be posted shortly on our website in order to meet the United States Department of Education rules and regulations. Please be patient as we pull this information to provide you the most accurate statistics. Please review SWIHA's retention percentages (also known as completion percentages) for those students who have started and graduated from their specific program each year. Please note that these statistics differ from the percentages we will have up shortly showcasing the percentage of students who have completed within their estimated graduation date.

SWIHA's mission is to help individuals discover their gifts and graces, and ultimately take them out into the world in a loving and profitable way.
